

Information & Safety Guidelines

Important Notice

All peptides sold by Nuvion Labz are intended **for laboratory research use only**. These products are **not for human consumption**, medical use, or veterinary use. By purchasing from our site, you agree to use these products solely for in vitro research or laboratory testing purposes.

Safe Handling Practices

To ensure proper handling of research peptides:

- Always wear appropriate **personal protective equipment (PPE)** including gloves, a lab coat, and eye protection.
 - Work in a clean, controlled laboratory environment to minimize contamination risk.
 - Use sterile instruments (syringes, pipettes, vials) when reconstituting or transferring peptides.
 - Dispose of unused material and equipment in accordance with your local regulations and laboratory protocols.
-

Peptide Storage Recommendations

Proper storage is critical to preserve the stability and integrity of peptides.

- **Lyophilized (dry) peptides:** Store in a **cool, dry place**, ideally at **-20 °C** for long-term storage.
 - **Reconstituted peptides:** Store at **2–8 °C (refrigerated)** and use within a short period (usually up to 2–4 weeks, depending on the peptide).
 - Avoid **repeated freeze-thaw cycles**, as these can degrade the peptide.
 - Always label vials clearly with the **compound name, concentration, and date of reconstitution**.
-

Reconstitution Guidelines

- Use sterile bacteriostatic water or another appropriate diluent.
 - Gently swirl the vial—**do not shake vigorously**, as this can denature the peptide.
 - If necessary, allow the peptide to fully dissolve at room temperature before use.
-

Shipping & Stability

All peptides are shipped in temperature-controlled packaging to maintain stability during transit. Lyophilized peptides are stable at ambient temperature for short periods; however, prompt transfer to proper storage conditions upon receipt is recommended.

Regulatory & Legal Disclaimer

- These products are **not drugs, not supplements, and not intended for human or animal use**.
 - The buyer assumes full responsibility for safe handling, storage, and use of the products in accordance with applicable laws and regulations.
 - Nuvion Labz is not liable for misuse of any products purchased.
